

## **ATTUNE**

with Optional Alternating Pressure for **Outstanding Pressure Relief** 

The Attune Mattress provides self adjusting therapy for prevention, early intervention and treatment of pressure ulcers in any clinical setting.

The optional control unit provides more aggressive alternating pressure therapy.

## **Features**

- 1. Pressure release valves provide non-powered, self adjusting therapy to redistribute interface pressure as the patient moves in bed.
- Optional control unit provides aggressive alternating pressure therapy for patients with existing ulcers.
- 3. Viscoelastic foam in the topper's midsection supplies optimal patient comfort.
- Reinforced handles on the bottom cover make the mattress easier to carry
- 5. Constructed with a fluid resistant quilted nylon cover to greatly reduce friction and shear forces.
- 6. Two options for top cover standard flat cover or a safety bolster cover with raised foam perimeter.

## **Specifications**
