

Span F450T

Standing Transfer Aid

*For users
Requiring
MINIMUM
ASSISTANCE*

- **Keeps patient actively engaged** in the transfer process.
- **Promotes independence**, weight-bearing, and trunk strength.
- **High Capacity:** 450 lb (205 kg) safe working load.
- **Care Flexibility:** Underbed clearance allows use with most low beds.

SPAN
better science. better care.

F450T Standing Transfer Aid

The ideal solution for patients with the ability to participate in their own transfers. Makes transport quick and simple while encouraging weightbearing as well as maintenance of trunk and upper body strength.

Swing-away padded seat for secure, comfortable transport

Non-slip footplate provides stable base for transfer

Underbed clearance, allows use with most low beds

Dual, contoured shin pads for added stability
